

Thursday's maths sheet. I'm off to Bath for work today, so think good thoughts for my train as it (hopefully) runs on time and isn't full of other sweaty commuters. This reminds me- if you have some free time over the summer holidays, have a look at a train or bus timetable, then catch that train or bus somewhere, and back again, because timetable questions always turn up somewhere in the 11+, and you could gain some practical knowledge to help you out. Also, you might have a fun day out somewhere- bonus! Love from Rachel :)
